

Timeline diagram showing the sequence of events: 4thLD, 3rdLD, SLD, and TLD.

The diagram illustrates the hierarchy of domain names. It consists of three horizontal bars of increasing length, each with a vertical line extending downwards to a label. The first bar is the shortest and is labeled "Sub Domain". The second bar is longer than the first and is labeled "Root". The third bar is the longest and is labeled "eTLD : Public Suffix List".

Host Name      Domain Name

The diagram consists of three horizontal bars of different lengths, each with a vertical tick mark at its center. Below each bar is a label: 'Scheme' for the shortest bar on the left, 'Domain' for the longest bar in the middle, and 'Path' for the medium-length bar on the right.
